DETAILED ACTION

Priority

This application claims benefit for foreign priority under 35 U.S.C. § 119(a)-(d) to European Patent Office (EPO) 02017676.4 08/07/2002, is acknowledged.

Status of Claims

Claims 1-46 and 53-55 are pending in the application.

Receipt is acknowledged of Applicant's amendment / response filed on August 11, 2004 and that has been entered.

Claims 47-52 and 56-60 are withdrawn from further consideration pursuant to 37 C.F.R. 1.142 (b) as being drawn to a non-elected subject matter.

Information Disclosure Statement

Receipt is acknowledged of Information Disclosure Statement (IDS), filed on 10/20/03 and 01/16/2004, which has been entered in the file.

Response to Election/Restriction

In response to the restriction requirement, Applicants have elected Group I, (which includes claims 1-20, and 53-55) with traverse and the elected species as set forth in Example 15, on page 25 of the specification, is acknowledged.

During a telephonic interview, with Ms. Kimberly Prior (Attorney for Applicant) on August 30, 2004, Applicant has agreed to cancel non-elected claims 47-52 and 56-60. On the other hand, Examiner has agreed to rejoin Group II-IV (claims 21-46) with the elected Group I. Therefore, the requirement for restriction is still deemed proper and is therefore made FINAL.

Art Unit: 1626

Applicants preserve their right to file a divisional on the non-elected subject matter.

Examiner's amendment

An Examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this Examiner's amendment was given in a telephone interview with Ms. Kimberly Prior on August 30, 2004.

The application has been amended as follows:

- a. Claims 47-52 and 56-60 have been canceled.

Reasons for allowance

The following is an examiner's statement of reasons for allowance:

McElroy *et al* (US 5,326,760) teach the aminobutanoic acid compounds, process for their preparation and methods of using thereof. The instant compound differs from the prior art by having a core of isoindole (wherein X is $-\text{CH}=\text{}$) ring, which is further substituted indirectly by different variables such as R^1 , R^2 , R^3 , and R^4 etc that are selective monoamine oxidase inhibitors and are useful for treating diseases mediated by monoamine oxidase B. The prior art compound neither teaches nor renders obvious the instant claimed compound and there is no suggestion or motivation to modify the compounds of other prior art to obtain the instantly claimed compounds. Therefore the instant claims 1-46 and 53-55 are allowable over the prior art of record.

The reference cited on the PTO-892 is included to show the state of the art.
